

DVB TV Software Update

Update details.

This latest update is to remove the “battery low warning” message from the top right hand corner of the screen. The TV will now operate normally with no screen warning.

Update instructions.

1. Download the BIN file and load on to empty USB stick.
2. Keep TV off and insert the USB stick in to the USB slot on DVB TV
3. Power on the DVB TV, the LED light in bottom left corner will flash Red & Green
4. Once complete the LED will stay solid red and screen will go black.
5. Turn off the DVB TV with side switch and remove USB stick
6. DVB TV is now updated and can be used normally.
